

GROUP REPRODUCTION PLAN

WORKSHEET

Use this with your small group leadership team on a regular basis to help you measure your progress toward reproducing a new small group from your group. (Need help? [Look here](#))

TAKE THE GROUP'S TEMPERATURE

Have each team member place an X on each line to show how you think your group is doing. Discuss until you all agree on where the X should be and why.

VISION (See [Creating an Outwardly Focused Small Group](#))

Focused outwardly

Focused inwardly

INVITATION (See [Train Your Group to Be Invitational](#) and [Strategic Times to Invite](#))

Regularly inviting others

Never inviting others

PARTICIPATION (See [Sharing Ministry in a Small Group](#))

Everyone shares in ministry

People are largely passive

LEADERSHIP (See [Be Intentional About Developing New Leaders](#))

Enough leaders for two teams

Too few leaders for a second group

ATTENDANCE (See [How Many People Do We Need to Reproduce Our Group?](#))

Plenty of people for two groups

Too few people for critical mass

DEFINE ACTION STEPS

Choose the most critical issue to the left. Outline steps to take to improve the group. Evaluate in one month.

DIVIDE INTERNALLY

Brainstorm ways to get the group used to dividing by splitting up within the group's existing meetings. (See [Getting a Group Ready to Reproduce](#).)

TO THE FINISH LINE

When the group is ready, create a plan for the last steps.

- Choose the best time in the calendar to reproduce. (See [Finding the Right Time to Reproduce a Group](#))
- Plan to celebrate. (See [Celebrate a New Group Launch](#))
- Set a launch date for new groups to begin.
- Work through the [Group Launch Plan](#) with leaders of both groups.
- Arrange for a period of transition. (See [Transitioning from One Group to Two](#))
